Halloween Event

On October 31\textsuperscript{st} students and staff got to dress up in costumes and Halloween colours (orange, black, and white) to celebrate Halloween. The Halloween event started in the afternoon with an inter-class costume parade. Students selected in the parade were chosen based on how creative their costumes were and effort put in. During the parade students got to trick or treat from class to class getting candy from teachers and other students.

After the parade and trick or treating all students returned to their classrooms and learned more about the history of Halloween, made Halloween crafts, and had a class party. At the end of the day students learned how to share and make others happy by sharing their candy and caring for one another.
